

## **Editorial Disclaimer**

As an independent organization, Clarivate Analytics does not become involved in and is not responsible for the editorial management of any journal or the business practices of any publisher. Publishers are accountable for their journal performance and compliance with ethical publishing standards. The views and opinions expressed in any journal are those of the author(s) and do not necessarily reflect the views or opinions of Clarivate Analytics.

Criteria for selection of newly submitted titles and re-evaluation of existing titles in the Web of Science are determined by the Web of Science Editorial Board in its sole discretion. If a publisher's editorial policy or business practices negatively impact the quality of a journal, or its role in the surrounding literature of the subject, the Web of Science Editorial Board may decline to include the journal in any Clarivate Analytics' product or service. The Web of Science Editorial Board, in its sole discretion, may remove titles from coverage at any point if the titles fail to maintain our standard of quality, do not comply with ethical standards, or otherwise do not meet the criteria determined by the Web of Science editorial board. If a journal is deselected or removed from coverage, the journal will cease to be indexed in the Web of Science from a date determined by the Web of Science Editorial Board in its sole discretion – articles published after that date will not be indexed. The Web of Science Editorial Board's decision on all matters relating to journal coverage will be final.
